Using a filter on the left-hand side, it is again possible to narrow down the hits by year of publication and/or library location.

The screenshot shows a library catalog interface. On the left, there are filter panels for 'Bestand filtern' (Inventory filters) and 'Bestand' (Inventory). The 'Bestand filtern' panel includes filters for 'Erscheinungsjahr' (Year of publication) and 'Ort der Bibliothek' (Library location). The 'Ort der Bibliothek' filter is expanded, showing a list of locations with checkboxes: Bruchsal (1), Chemnitz (1), Darmstadt (3), Dresden (5), Düsseldorf (1), Eichstätt (1), Emden (1), and others. A green arrow points from the 'Ort der Bibliothek' filter to the search results. The search results are displayed in a table with columns for 'Bestand', 'Bestandsvergleich', 'Bestandskarte', 'Titelhistorie', and 'Titelrelationen'. The results are sorted by 'Name' and show the following entries:

Bestand	Bestandsvergleich	Bestandskarte	Titelhistorie	Titelrelationen

The available volumes and the location numbers are listed under "Stock". (A hyphen after the year means that the journal is currently being subscribed to).
